Doors are at the heart of your home's security, and we design our products to ensure that visitors to your home are only the welcome ones.

So whether it's our security hinges, state of the art 10 point locking system, our dedication to security is second to none.

- 10 point locking system for maximum security and piece of mind.
- 4 pre-compression rollers allowing door to seal prior to hooks engaging for smooth operation.
- 3 opposing steel hooks to maximise strength.
- 2 anti-lift bolts preventing door lock being dislodged from keeps
- 1 centre latch for ease of day to day operation, incorporating dead-lock action when bolts and locks are engaged for added security

Our windows feature the innovative Q-Lon weather seals.

Offering exceptional performance over a wide temperature range, they don't shrink or stretch. Instead they retain their original shape year after year to maintain an excellent weather seal.

The unique construction actively absorbs sound pollution, increasing acoustic insulation. Immune to rot, mould, mildew, UV and ozone, CFC-free Q-Lon weather seals will last the lifetime of the door.

- 95% recovery
- Low sightline
- Lower operating force.

The unique design of our bi-fold door means both cill and track are incorporated into the threshold, which results in a reduced frame height for improved aesthetics and a smoother operation of opening and closing.

Designed to fully maximise any opening space, bi-fold doors are available from 2-6 panes in a variety of opening sequences to suit your needs. Large styles can incorporate single or even double opening doors for day to day practical use.

Features and benefits include;

- High performance weathering with Q-Lon weatherseal
- Slimline UPVC
- Intergrated aluminium cill and track for smooth operation.

Our patio doors ensure smooth operation along with improved security with our 8 point locking system which is available on all door options.

In-line PVC patio doors are ideal when opening area is at a premium as the sashes do not encroach into the surrounding space.

Other key features & benefits include;

- Choose from 2, 3 and 4 pane options.
- Internally beaded
- Available in a variety of foiled finishes, both woodgrain and solid colours
- Stainless steel track and tandem rollers for smooth operation.

Our french door allows you to enjoy the benefits of modern performance with high security, advanced weather and energy performance combined to ensure our products are built to last the test of time.

A variety of styles are available which can include midrails, french doors can also be designed with side panels to span larger openings.

Other key features and benefits include;

- High performance weathering with Q-Lon weatherseal
- Available in a variety of foiled finishes, both woodgrain and solid colours
- Range of handle colours to compliment the finish of your door
- Wide range of glass designs
- Low PVC and aluminium disability low thresholds
- High security multi-point locking system with one piece keep.

Our range is available in a variety of finishes including white, rosewood, golden oak and a range of solid colours.
